

TRIAL PUMP PROGRAM
TERMS & CONDITIONS

1. The standard trial pump test will be 30 days from the date of delivery.
2. The data specification sheet must be filled in completely & accurately before a pump can be selected.
3. The Sales Engineer **MUST** be present at the start-up of the trial unit.
4. The air to the pump **MUST** be filtered. If no filter in the airline is present, a filter regulator must be purchased (not returnable).
5. If the pump works according to the customer's specification and is rejected by the customer then the customer is responsible for replacing the wetted parts of the pump which consist of the diaphragm and valve kits.
6. The shipping cost to the customer is on the customers account if the destination is outside of KZN.
7. The trial pump can be returned provided that the customer gives a full report as to why the pump has been rejected and the pump is cleaned.

THIS DOCUMENT MUST BE COMPLETED TOGETHER WITH THE APPLICATION FOR A TRIAL PUMP AND A COMPANY LETTERHEAD STATING YOUR REQUEST FOR A TRIAL PUMP.
